

# GO GREEN!

DO YOUR PART TO HELP CONSERVE ENERGY AND PRESERVE THE ENVIRONMENT, WHILE SAVING A TON OF MONEY!

## WHY USE LED LIGHTS?

- Extremely long life >50 000 hours
- Consumes less energy, but produces more light per watt.
- Environmentally Friendly (no Mercury unlike CFL lamps)
- Durable solid state component highly resistant to external shock
- Cool to touch emitting minimal heat (80% light/20% heat)
- Excellent for battery power or energy-saving devices
- Strike very quickly (full brightness in nano seconds)

Did You Know.. ?

**LAX**  
 Los Angeles International Airport  
 The LED-based system will cut energy consumption by 75%. Expected savings in electrical and maintenance cost will be approximately **\$1,035,000!**
