

NEW LS-80 LED System

System Includes:

- 4x Par 38 polish Par Cans (1x Red, 1x Green, 1x Blue, 1x Amber)
- 1x T20F Chase Controller system with foot control
- 1x Light Stand (extends up to 10 feet/3M)

The **LS-80 LED System** is a great all-in-one par can system for any mobile entertainer. This popular American DJ lighting system features four LED par cans; one red, one green, one blue and one amber. Each par can uses 12x 1-Watt LEDs producing bright color washes of light. Each par can is rated at an extremely long 50,000 hour life.

The LS-80 LED System uses two T20F chase/foot control system. Users can operate this easy-to-use chase controller directly on from T20F controller or with the foot switch. The T20F features: 20 built-in programs - 10 normal chase programs and 10 chase programs with fade time, 7 pre-set scenes, black out, plus master/slave and DMX operation.

Great for any performer on the go, the LS-80 LED System is easy to set-up and take down. Plus, with low heat emitting LEDs performers stay cooler on stage.
