

# Arch Of Triumph

*American DJ Unveils Mega Pixel Arch. Unique Arch-Shaped Color-Mixing LED Chasing Effect.*

Why settle for the Golden Arches, when now you can have arches in every conceivable color under the sun! American DJ has introduced the Mega Pixel Arch, an amazing new DMX-controllable LED chasing effect that has the unique shape of an arch and produces electrifying chase patterns in a spectrum of brilliant colors.

A stunning chase effect when used alone, the linkable Mega Pixel Arch is even more impactful when used together with other units to create circles, waves and other eye-popping shapes. It can also be linked to its namesake effect, American DJ's Mega Pixel LED, an elongated bar effect with similar banks of chasing red, green and blue LEDs. Light show designers will find an erector set of possibilities for hooking up various configurations of arch-shaped Mega Pixel Arches and bar-shaped Mega Pixel LEDs -- their imagination being the only limit! The Mega Pixel Arch and Mega Pixel LED are also great for creating attention-grabbing marquees to highlight displays, retail areas and trade show booths.

- 288 LEDs (96 Red, 96 Green, & 96 Blue LEDs)
- 7 DMX Channel Modes: 3,4,7,10, 16, 24 or 28 channel modes
- Linkable via 3-pin XLR cable
- Includes mounting brackets
