

American Audio's MIDI-Capable Radius 1000 CD/MP3 Player

DJ With CDs Or A Computer! Control Digital Tracks On Your Computer "Hands-On" With American Audio's MIDI-Capable Radius 1000 CD/MP3 Player

Now DJ/producers and mobile entertainers can have one convenient deck that functions as a CD/MP3 player and also controls their MIDI software. American Audio has introduced the Radius 1000, an exciting new CD/MP3 player with MIDI capabilities for controlling professional music playback software.

The Radius 1000 is a radically cool hands-on device that lets you play digital tracks directly from your computer without using a mouse, just like you would with a professional CD deck, giving you a real hardware feel. That means DJs now have the ability to put on a truly dynamic performance and execute a range of creative expressions — from advanced digital scratching to adding audio effects on the fly — using only their laptop and the Radius 1000.

- Plays MP3, CD & CD-R discs
- Midi software compatible via USB
- (Control up to 8 MIDI channels at once)
- Display shows track titles and artist from ID tags when played
- Advanced Track Search: Search for a new track while one is playing
- 2 Scratching modes: Digital Scratch mode, Beat Juggle mode
- 9 On-board FX: Scratch, Filter, Echo, Trans, Skid, Phase, Flanger, Pan, Bop
